MANAGEMENT INFORMATION CIRCULAR
(Containing information as at May 5, 2017, unless indicated otherwise)

PERSONS MAKING THE SOLICITATION

This Management Information Circular (the “Circular”) is furnished in connection with the solicitation of proxies being made by the management (“Management”) of ShaMaran Petroleum Corp. (the “Corporation”) for use at the Annual General Meeting (the “Meeting”) of holders of common shares (the “Shareholders”) in the capital of the Corporation (the “Common Shares”) to be held on Thursday, June 15, 2017 at 8:00 a.m. (Pacific Daylight Time) at Suite 2000, 885 West Georgia Street, Vancouver, British Columbia, V6C 3E8 and for the purposes set forth in the accompanying Notice of Meeting. While it is expected that the solicitation will be made primarily by mail, proxies may be solicited personally or by telephone by directors, officers and employees of the Corporation at nominal cost. All costs of this solicitation will be borne by the Corporation.

The contents and the sending of this Circular have been approved by the directors of the Corporation.

Unless otherwise stated herein, all currency amounts indicated as “\$” in this Circular are expressed in United States Dollars, the Corporation’s reporting currency.

APPOINTMENT OF PROXYHOLDER AND VOTING BY PROXY

The individuals named in the accompanying form of proxy (the “Proxy”) are directors, officers, or the legal counsel of the Corporation (the “Management Proxyholders”). A Shareholder wishing to appoint a person or company other than Management Proxyholders to attend and act for the shareholder and on the shareholder’s behalf at the Meeting has the right to do so, by striking out the names of the Management Proxyholders and by inserting the desired person’s or company’s name in the blank space provided in the proxy, or by executing a proxy in a form similar to the enclosed form. In either case, the completed form of proxy must be received by Computershare Investor Services Inc. prior to the Meeting or any adjournment thereof. A proxyholder need not be a shareholder.

You can choose to vote your Common Shares by proxy, by mail, by telephone or on the Internet. If you vote your Common Shares by proxy by mail, completed forms of proxies **must be received by the Corporation’s transfer agent, Computershare Investor Services Inc. (“Computershare”), at Proxy Department, at 100 University Avenue, 8th Floor, Toronto, Ontario, Canada M5J 2Y1.** Telephone and Internet voting can also be completed 24 hours a day, 7 days a week which is noted on your proxy form. If you vote by telephone, you cannot appoint anyone other than the appointees named on the proxy form as your proxyholder. For internet voting, go to www.investorvote.com and follow the instructions on the screen. For either telephone or internet voting, you will need your 15 digit control number which is noted on your proxy form. **Duly completed forms of proxy or a vote using the telephone or over the Internet must be completed no later than forty-eight (48) hours (excluding Saturdays and holidays) before the time of the Meeting, or any adjournment thereof.**

If you are a beneficial shareholder and receive these materials through your broker or through another intermediary please complete and return the form of proxy in accordance with the instructions provided by your broker or other intermediary.

ADVICE TO NON-REGISTERED HOLDERS OF COMMON SHARES

The information set forth in this section is of significant importance to many Shareholders as a substantial number of Shareholders do not hold Common Shares of the Corporation in their own name. Shareholders who hold their Common Shares through their banks, brokers, trustees or other persons (“Intermediaries”), or who otherwise do not hold their Common Shares in their own name (referred to in this Circular as “Beneficial Shareholders”) should note that only proxies deposited by Shareholders who appear on the records maintained by the Corporation’s registrar and transfer agent as registered holders of Common Shares (“Registered Shareholders”) will be recognized and acted upon at the Meeting. If Common Shares are listed in an account statement provided to a Beneficial Shareholder by a broker, those Common Shares will, in all likelihood, not be registered in the Shareholder’s name. Such Common Shares more likely will be registered under the name of the Shareholder’s broker or an agent of that broker. In Canada, the vast majority of such Common Shares are registered under the name of CDS & Co. (the registration name of the Canadian Depository for Securities which acts as nominee for many Canadian brokerage firms). Common Shares held by brokers (or their agents or nominees) on behalf of a broker’s client can only be voted (for or against resolutions) at the direction of the Beneficial Shareholder. Without specific instructions, brokers and their agents and

nominees are prohibited from voting shares for the broker's clients. **Therefore, each Beneficial Shareholder should ensure that voting instructions are communicated to the appropriate person well in advance of the Meeting.**

Existing regulatory policy requires Intermediaries to seek voting instructions from Beneficial Shareholders in advance of shareholders' meetings. The Intermediaries have their own mailing procedures and provide their own return instructions to clients, which should be carefully followed by Beneficial Shareholders in order to ensure that their Common Shares are voted at the Meeting. The form of proxy supplied to a Beneficial Shareholder by its broker (or the agent of the broker) is substantially similar to the instrument of proxy provided directly to Registered Shareholders by the Corporation and is commonly referred to as a "**voting instruction form**". However, its purpose is limited to instructing the Registered Shareholder (i.e., the broker or agent of the broker) how to vote on behalf of the Beneficial Shareholder. The vast majority of brokers now delegate responsibility for obtaining instructions from clients to Broadridge Financial Solutions, Inc. ("**Broadridge**"). Broadridge typically prepares a machine-readable voting instruction form, mails such forms to Beneficial Shareholders and asks Beneficial Shareholders to return the forms to Broadridge or otherwise communicate voting instructions to Broadridge (by way of the Internet or telephone, for example). Broadridge then tabulates the results of all instructions received and provides appropriate instructions respecting the voting of Common Shares to be represented at the Meeting. **A Beneficial Shareholder who receives a Broadridge voting instruction form cannot use that form to vote their Common Shares directly at the Meeting. The voting instruction forms must be returned to Broadridge (or instructions respecting the voting of Common Shares must otherwise be communicated to Broadridge) well in advance of the Meeting in order to have the securities voted. If you have any questions respecting the voting of Common Shares held through an Intermediary, please contact that Intermediary promptly for assistance.** Although a Beneficial Shareholder may not be recognized directly at the Meeting for the purposes of Common Shares registered in the name of his broker, a Beneficial Shareholder may attend the Meeting as proxyholder for the Registered Shareholder and vote the Common Shares in that capacity. **Beneficial Shareholders who wish to attend the Meeting and indirectly vote their securities as proxyholder for the Registered Shareholder should enter their own names in the blank space on the form of proxy provided to them and return the same to their broker (or the broker's agent) in accordance with the instructions provided by such broker.**

These security holder materials are being sent to both Registered Shareholders and Beneficial Shareholders who have not objected to the intermediary through which their common shares are held disclosing ownership information about themselves to the Corporation ("**NOBO**'s"). If you are a NOBO, and the Corporation or its agent has sent these materials directly to you, your name and address and information about your holdings of Common Shares have been obtained in accordance with applicable securities regulatory requirements from the Intermediary holding on your behalf. By choosing to send these materials to you directly, the Corporation (and not the Intermediary holding Common Shares on your behalf) has assumed responsibility for (i) delivering these materials to you, and (ii) executing your proper voting instructions. Please return your voting instructions as specified in the request for voting instructions.

If you are a Beneficial Shareholder who has objected to the intermediary through which your common shares are held disclosing ownership information about you to the Corporation (an "**OBO**"), please note that the Corporation does not intend to pay for an intermediary to deliver the proxy-related materials with respect to the Meeting and related forms to you and, therefore, you will not receive the materials with respect to the Meeting unless your intermediary assumes the cost of delivery.

ADVICE TO HOLDERS OF EUROCLEAR SWEDEN REGISTERED SHARES

The information set forth in this section is of significance to Shareholders who hold their securities ("Euroclear Registered Securities") through Euroclear Sweden AB, which securities trade on the NASDAQ OMX First North Exchange. Shareholders who hold Euroclear Registered Securities are not registered holders of voting securities for the purposes of voting at the Meeting. Instead, Euroclear Registered Securities are registered under CDS & Co., the registration name of the Canadian Depository for Securities. Holders of Euroclear Registered Securities will receive a voting instruction form (the "**VIF**") by mail directly from Computershare AB ("**Computershare Sweden**"). Additional copies of the VIF, together with the Corporation's Management Information Circular, can also be obtained from Computershare Sweden and are available on the Corporation's website (www.shamaranpetroleum.com). **The VIF cannot be used to vote securities directly at the Meeting. Instead, the VIF must be completed and returned to Computershare Sweden, strictly in accordance with the instructions and deadlines that will be described in the instructions provided with the VIF.**

REVOCAION OF PROXIES

A Registered Shareholder who has returned a proxy may revoke it at any time before it has been exercised. In addition to revocation in any other manner permitted by law, a proxy may be revoked by instrument in writing, including a proxy bearing a later date, executed by the Registered Shareholder or by his attorney authorized in writing or, if the Registered Shareholder is a corporation, under its corporate seal or by an officer or attorney thereof duly authorized. The instrument revoking the proxy must be deposited at the registered office of the Corporation, at Suite 2600 Oceanic Plaza, 1066 West Hastings Street, Vancouver, British Columbia, V6E 3X1 (Attention: Kevin Hisko, Corporate Secretary) at any time up to and including the last business day preceding the date of the Meeting, or any adjournment thereof, or with the Secretary of the Corporation or the chairman of the Meeting prior to the time of voting at the Meeting. Only registered Shareholders have the right to revoke a proxy. **Beneficial Shareholders who wish to change their vote must arrange for their respective intermediaries to revoke the proxy on their behalf.**

VOTING OF PROXIES

The Common Shares represented by a properly executed proxy in favor of Management Proxyholders will:

- (a) be voted or withheld from voting in accordance with the instructions of the person appointing the Management Proxyholder on any ballot that may be called for; and
- (b) where a choice with respect to any matter to be acted upon has been specified in the form of proxy, be voted in accordance with the specification made in such proxy.

ON A POLL SUCH COMMON SHARES WILL BE VOTED IN FAVOUR OF EACH MATTER FOR WHICH NO CHOICE HAS BEEN SPECIFIED OR WHERE BOTH CHOICES HAVE BEEN SPECIFIED BY THE SHAREHOLDER.

The enclosed form of proxy when properly completed and delivered and not revoked confers discretionary authority upon the person appointed proxy thereunder to vote with respect to amendments or variations of matters identified in the Notice of Meeting, and with respect to other matters which may properly come before the Meeting. If any amendments or variations to matters identified in the Notice of Meeting are properly brought before the Meeting or any further or other business is properly brought before the Meeting, it is the intention of the Management Proxyholders to vote in accordance with their best judgment on such matters or business. At the time of the printing of this Circular, the Management knows of no such amendment, variation or other matter that may be presented to the Meeting.

NOTICE AND ACCESS

The Corporation is not sending the Meeting materials to Shareholders using “notice and access”, as defined in National Instrument 54-101 – Communications with Beneficial Owners of Securities of a Reporting Issuer.

INTEREST OF CERTAIN PERSONS OR COMPANIES IN MATTERS TO BE ACTED UPON

Except as may be disclosed herein, no director or executive officer of the Corporation, or any person who has held such a position since the beginning of the last completed financial year end of the Corporation, nor any nominee for election as a director of the Corporation, nor any associate or affiliate of the foregoing persons, has any substantial or material interest, direct or indirect, by way of beneficial ownership of securities or otherwise, in any matter to be acted upon at the Meeting. Directors and executive officers may, however, be interested in the annual approval of the Corporation’s 10% rolling incentive Stock Option Plan (the “Stock Option Plan”) as detailed in “Particulars of Other Matters to be Acted Upon – Annual Approval of Stock Option Plan”.

STATEMENT OF EXECUTIVE COMPENSATION

For the purposes of this Circular, a Named Executive Officer (a "NEO") means each of the following individuals: (a) the Chief Executive Officer of the Corporation, (b) the Chief Financial Officer of the Corporation, (c) each of the three most highly compensated executive officers of the Corporation including any of its subsidiaries, or the three most highly compensated individuals acting in a similar capacity, other than the Chief Executive Officer and Chief Financial Officer, at the end of the most recently completed financial year whose total compensation was, individually, more than CAD \$150,000 as determined in accordance with subsection 1.3(6) of Form 51-102F6 for the December 31, 2016 financial year; and (d) each individual who would be an NEO under paragraph (c) but for the fact that the individual was neither an executive officer of the Corporation or its subsidiaries, nor acting in a similar capacity, as of December 31, 2016.

During the financial year ended December 31, 2016, the Corporation had two NEOs of the Corporation, namely, Mr. Chris Bruijnzeels, President and Chief Executive Officer, and Mr. Brenden Johnstone, Chief Financial Officer.

COMPENSATION DISCUSSION AND ANALYSIS

The following compensation discussion and analysis describes the Corporation's practices with respect to the compensation of its NEOs.

Overview of Compensation Philosophy

The Corporation's compensation philosophy is to structure remuneration packages that are sufficiently attractive to recruit, retain and motivate the kind of executives who will be instrumental in helping the Corporation achieve its short and long-term objectives, to provide executives with compensation that is in accordance with existing market standards generally, to align the interests of executive officers with those of the Corporation's Shareholders and to link individual executive compensation to the performance of both the Corporation and the individual executive.

The Corporation's compensation structure is based on a European model which takes into account inflation (cost of living), and provides for merit increases (only to the extent that an individual's job description or duties have been substantially altered), and cash bonuses which are based on a number of factors, including base salary, length of service and specific performance. In 2016, the Compensation Committee reviewed the Corporation's long term incentive plan, which consisted solely of stock options, and set out to evaluate alternative long-term incentive vehicles for the Corporation's executives. As a result of this review, the Compensation Committee recommended, and the Board approved, the introduction of a Share Unit Plan for senior executives to further enhance their alignment with the interests of shareholders.

Elements of Compensation

Executive compensation is comprised of three elements:

- base salaries, which are set at levels which are competitive with the base salaries paid by corporations of a comparable size within the oil and gas exploration industry and with operations at approximately the same stage of development, thereby enabling the Corporation to compete for and retain executives critical to the Corporation's long-term success;
- bonuses, which are considered from time to time, based on individual and corporate performance criteria;
- share ownership opportunities through a Stock Option Plan and a Share Unit Plan providing for the issuance, at the discretion of the directors, of stock options, restricted share units and performance share units, which provides additional incentive and aligns the interests of executive officers with the longer term interests of shareholders.

Each element of the Corporation's executive compensation program is described in more detail below.

Base Salaries

A NEO's base salary is intended to remunerate the NEO for discharging job responsibilities and reflects the executive's performance over time. Individual salary adjustments take into account performance contributions in connection with their specific duties. The base salary of each executive officer is determined by the Compensation Committee based on an assessment of his sustained performance and consideration of competitive compensation levels for the markets in which the Corporation operates. In making its recommendations to the Board, the Compensation Committee also considers the particular skills and experience of the individual. The base salaries of executive officers are reviewed annually.

Performance-based Cash Bonuses

The Corporation may award discretionary cash bonuses to executive officers and employees of the Corporation from time to time. The amount of the bonus that each individual may be eligible for is not set in relation to any formula or specific criteria, but is the result of a subjective determination of the Corporation's performance, overall industry conditions, as well as the individual's performance and his or her contribution to overall corporate goals. The payment of bonuses is subject to the final approval of the Board and the Board has the discretion to amend or veto bonuses in its sole discretion.

Long Term Incentive Compensation

The Corporation may, in order to align the performance of its executives to strategic goals of the Corporation and its long-term shareholder return, issue under the Corporation's long term incentive plan for its NEOs individual stock options ("Stock Options"), restricted share units ("RSUs") and or performance share units ("PSUs").

The following summarizes the key terms of the Corporation's long term incentive plans ("LTIPs"), namely: the Stock Option Plan initially adopted by shareholders at the annual and special meeting held on June 21, 2004 and amended on June 15, 2016 (the "Stock Option Plan") and the Share Unit Plan ("Share Unit Plan") as adopted by the Board and approved by the Shareholders on June 15, 2016. This summary is qualified in its entirety by the full text of the Stock Option Plan and by the Share Unit Plan. Capitalized terms used in the summary of the LTIPs below that are not otherwise defined herein, shall have the meanings given to such terms in the LTIPs.

Administration. The Board will administer the LTIPs and has the right to delegate the administration and operation of the LTIPs, in whole or in part, to a committee of the Board.

Awards Available for Grant. Pursuant to the LTIPs, the Board may grant options (“Options”) pursuant to the Stock Option Plan, restricted share units (“RSUs”) and performance share units (“PSUs”) pursuant to the Share Unit Plan and any combination of the foregoing.

Eligible Participants. As designated by the Board, Options, RSUs and PSUs may be granted to any officer, director or employee of the Corporation or a Consultant of the Corporation or any Affiliate and any such person’s personal holding company.

Number of Shares. The maximum number of Shares which may be reserved for issuance under the LTIPs in respect of grants of Options, RSUs and PSUs to Participants and for dividend-equivalent payments in respect thereof cannot exceed 10% of the issued and outstanding Shares of the Corporation. As of May 12, 2017, there were 2,158,631,534 Shares issued and outstanding. Also as of May 12, 2017, there were 28,165,000 Options outstanding under the LTIPs, representing, in aggregate, 1.30% of the number of Shares outstanding. Therefore, 187,698,153 Shares, being 8.70% of the number of Shares outstanding, are available to be reserved for issuance under the LTIPs.

Participation Limits. Unless the Corporation has received requisite shareholder approval, under no circumstances shall the LTIPs, together with all other Share Compensation Arrangements of the Corporation, result, at any time, in: (i) the aggregate number of Shares reserved for issuance to insiders (as a group) at any point in time exceeding 10% of the Corporation’s issued and outstanding Shares; (ii) the issuance to insiders (as a group), within a one-year period, of an aggregate number of Shares exceeding 10% of the Corporation’s issued and outstanding Shares; (iii) the aggregate number of Shares reserved for issuance to all non-employee directors of the Corporation exceeding 1% of the Corporation’s issued and outstanding Shares; or (iv) the grant to any individual non-employee director of the Corporation of more than CAD\$150,000 worth of Shares annually .

Subject to compliance with the foregoing limitations, the number of Common Shares which may be issuable under the LTIPs within any one-year period:

- (i) to any one Eligible Person, shall not exceed 5% of the total number of issued and outstanding Common Shares on the Grant Date on a non-diluted basis;
- (ii) to Insiders as a group shall not exceed 10% of the total number of issued and outstanding Common Shares on the Grant Date on a non-diluted basis; and
- (iii) to any one Consultant shall not exceed 2% in the aggregate of the total number of issued and outstanding Common Shares on the Grant Date on a non-diluted basis.

Vesting. Each Grant Agreement will describe the vesting dates for Options, RSUs and PSUs. RSUs and PSUs will vest based on the conditions described in the Grant Agreement and, in any case, no later than the end of the third calendar year following the date of the grant.

Term and Settlement of RSUs and PSUs. RSUs and PSUs will be settled on the first business day following the applicable vesting date but in all events in the calendar year in which such first business day occurs. The Share Unit Plan provides for redemption (or payment) in cash, shares or a combination of cash and shares. It is anticipated that RSUs and PSUs will be settled by the Corporation in Shares issued from treasury.

Cessation. Subject to the discretion of the Board, if a Participant ceases to be an Eligible Person due to his or her: (i) resignation any unvested Options or Units held by that Participant shall expire; or (ii) termination with cause, all vested and unvested Share Units immediately expire. The expiration of an Option or Share Unit renders it void and incapable of exercise and/or settlement.

Subject to the discretion of the Board, if the Participant ceases to be an Eligible Person because of his or her termination without cause, retirement, death, or disability, such day representing the final date of employment by the Eligible person (“Final Date”) then (i) a portion of the unvested RSUs held by the Eligible Person shall immediately vest on the Final Date. The number of unvested RSUs held by the Eligible Person that vest would be calculated by multiplying the number of unvested RSUs held by the Eligible Person by a fraction, the numerator of which equals the number of days the Eligible Person was actively employed between the Grant Date of such RSUs and the Final Date, and the denominator of which equals the total number of days between the Grant Date of such RSUs and their original vesting date; (ii) any unvested PSUs held by such Eligible Person will remain outstanding for the balance of their term pursuant to this Plan and the Grant Agreement and in the event that the applicable Performance Conditions are met prior to expiry, such PSUs will vest and the Corporation shall issue Common Shares or make payment with respect to such PSUs to the Eligible Person as soon as reasonably practical thereafter; and (iii) any vested Share Units credited to the Eligible Person’s account as of the Final Date will remain payable in accordance with the Share Unit Plan and the Eligible Person shall receive a payout in respect of each such vested Share Unit as soon as reasonably practicable thereafter.

Assignability. In no event may the Options or Share Units under the LTIPs be assigned or transferred in any way, except to the extent such Options and/or Share Units may pass to a beneficiary or legal representative upon death of a participant.

Amendments. The Board may amend, revise or discontinue the terms and conditions of the LTIPs in its sole discretion subject to certain limitations under the LTIPs. The Board may, from time to time, in its discretion and without the approval of shareholders, make changes to the LTIPs which do not require shareholder approval, which may include an amendment that: (i) is necessary to comply with any applicable law or any requirement of a stock exchange; (ii) is in respect of the administration of or eligibility for participation in the LTIPs;

(iii) is to alter, extend or accelerate the vesting or settlement terms of any Option or Share Unit; or (iv) is of a “housekeeping nature”, or any other amendments, fundamental or otherwise, not requiring shareholder approval.

The Board may not amend the LTIPs without approval from the shareholders if any applicable law, or stock exchange rule, regulation or policy, requires that the amendment be approved by the Shareholders. Shareholder approval of an amendment to the LTIPs is specifically required where the amendment: (i) increases the maximum number of Shares issuable under the LTIPs; (ii) a change in the method of calculation of redemption of Share Units, and (iii) an extension to the term of Share Units.

Fair Market Value. Fair Market Value means, in relation to a Share, the arithmetic average closing price of the Share on the TSX Venture Exchange (the “TSX-V”) for the five immediately preceding trading days.

Adjustments. The LTIPs provides that appropriate adjustments, if any, will be made by the Board in connection with a reclassification, reorganization, or other change of shares, consolidation, distribution, merger or amalgamation, in order to maintain the participant’s economic rights in respect of their units in connection with such change in capitalization.

Dividend Equivalents. If a dividend becomes payable by the Corporation on its Shares, participants will be entitled to be credited with dividend equivalent payments in the form of additional RSUs and/or PSUs, as applicable, which additional units will be settled at the same time that the underlying RSUs and/or PSUs, as applicable, are settled.

Change of Control. In the event of a change of control transaction all outstanding Share Units which have not vested shall immediately vest and become payable on the date of the change of control.

Stock Options

The stock option component of a NEO’s compensation, which includes a vesting element to ensure retention, serves to both motivate the executive toward increasing share value and to enable the executive to share in the future success of the Corporation. Individual stock options are granted by the Board on the recommendation of senior management, in the case of employees, and by the Compensation Committee, in the case of executive officers, including the NEOs. Options are normally awarded by the Board upon the commencement of an individual’s employment with the Corporation based on the level of responsibility within the Corporation. Additional option grants may be made periodically to ensure that the number of stock options granted to any particular individual is commensurate with the individual’s level of ongoing responsibility within the Corporation. In considering additional grants, a number of factors are considered, including, the role the individual plays in the Corporation, the number of stock options an individual has been granted, the exercise price and the value of the options and the term remaining on those options. The terms and conditions of the Corporation’s stock option grants, including vesting provisions and exercise prices, are governed by the terms of the Stock Option Plan, which are described under “Securities Authorized for Issuance Under Equity Compensation Plans”.

Restricted Share Units (“RSUs”)

The restricted share unit component of a NEO’s compensation is an incentive-based method of compensation pursuant to which executives are awarded units in lieu of cash payments that such individuals are entitled to for their service to the Corporation. When RSUs are granted the award is valued based on the market price of the Corporation’s shares at the time of grant and the value of a RSU tracks the market value of the Corporation’s shares from the date of grant to the date of expiry, which is generally three years from the grant date. When the RSU is paid out, the value of the RSU will be the market value of the Corporation’s shares at the payout date. RSUs may be settled in cash or the Corporation’s shares issued from treasury.

Performance Share Units (“PSUs”)

Similar to RSUs, the performance share unit component of a NEO’s compensation is an incentive-based method of compensation pursuant to which executives are awarded units that track the value of the Corporation’s common shares. However, PSUs are subject to additional performance conditions that serve to enhance the alignment of executives to key strategic, financial and operational milestones of the Corporation. PSUs will vest when the performance conditions have been met. PSUs may be settled in cash or the Corporation’s shares issued from treasury.

Benefits and Perquisites

Benefits do not form a significant part of the remuneration package of any of the NEOs. In most cases, employment benefits, health care, life insurance and, where applicable, state pension plan contributions are provided in a manner which is in keeping with industry standards. During the financial year ended December 31, 2016, none of the NEOs received any perquisites which in the aggregate were greater than \$50,000 or 10% of the respective NEO’s salary.

Composition of the Compensation Committee

The Compensation Committee, on behalf of the Board, monitors compensation for the executive officers of the Corporation. As of December 31, 2016, the Compensation Committee consists of three members: namely, Messrs. Keith C. Hill, C. Ashley Heppenstall and Brian Edgar. All three members of the Compensation Committee are considered to be independent. Since April 2008 the Compensation Committee has maintained a mandate and meets as frequently as necessary in order to fulfill its responsibilities and in any event, at least annually.

The following is a summary description of the mandate and responsibilities of the Compensation Committee as it relates to NEO compensation:

- to review and approve corporate goals and objectives relevant to NEO compensation, including the evaluation and performance of the NEO in light of those corporate goals and objectives, and to make recommendations to the Board with respect to NEO compensation levels (including the award of any cash bonuses or share ownership opportunities);
- to consider the implementation of short and long-term incentive plans, including equity-based plans, proposed by management, to make recommendations to the Board with respect to these plans and to annually review such plans after their implementation; and
- to annually review any other benefit plans proposed by management and to make recommendations to the Board with respect to their implementation.

All members of the Compensation Committee have direct experience which is relevant to their responsibilities as Compensation Committee members. All members are or have held senior executive roles within public companies, and therefore have a good understanding of compensation programs. They also have good financial understanding which allows them to assess the costs versus benefits of compensation plans. The members combined experience in the resource sector provides them with the understanding of the Corporation's success factors and risks, which is very important when determining metrics for measuring success.

Performance Factors

At this stage of the Corporation's development, no formal criteria have been established to evaluate corporate and individual performance; however, a number of factors are considered by the Compensation Committee in making recommendations for executive compensation including, but not limited to:

- the progression of the Corporation's projects framed around budget forecasts presented to and approved by the Board;
- the Corporation's overall financial and operating performance;
- objective factors such as the NEO's level of responsibilities, experience, and expertise, length of service and the levels of compensation provided by industry competitors;
- subjective factors such as leadership and such NEOs specific performance and contribution to the benefit of the Corporation, including maintaining good government relations;
- compensation data of peer group companies;
- the Corporation's market capitalization; and
- the long-term interests of the Corporation and its shareholders.

Role of Management in Determining Compensation

The accountability for decisions on executive remuneration is within the mandate of the Board with recommendations from the Compensation Committee; however, management has a key role in helping support the Compensation Committee in fulfilling its obligations. For example, the CEO and other senior members of the Corporation's management team provide a source of external data and analysis.

Recruiting and Retention

The Corporation recognizes that its compensation package has to be sufficient to attract and retain the right level of skill, expertise and talent in an increasingly competitive global market.

The structure of the remuneration package must be well-balanced across the short, medium and longer term elements, so that it is both attractive to the individual and cost effective for the Corporation. This balance is achieved by providing base salary at a reasonable median level as an anchor which makes the Corporation a realistic prospect for talented candidates. However, the short term incentive (discretionary bonuses) provides recruits with the opportunity to achieve superior total annual reward through their own delivery of excellence at individual and business levels. Finally, the longer term reward element (stock option and share unit grants), which provides the opportunity to build ownership and growth in the medium and longer term future in line with the opportunities for success afforded to the shareholders.

Fiscal 2016 Compensation Review

On December 12, 2016 the Compensation Committee carried out its annual review of NEO salaries and recommended no change to the base salaries of the Corporation’s CEO, Mr. Chris Bruijnzeels, and CFO, Mr. Brenden Johnstone. The Compensation Committee also determined that it was appropriate that each of Messrs. Bruijnzeels and Johnstone receive cash bonuses which are reflected in the Summary Compensation Table below under the column “Annual Incentive Plans”. The Board accepted and approved on December 12, 2016 all of the recommendations of the Compensation Committee for Messrs. Bruijnzeels and Johnstone.

In determining the annual cash bonus of the NEOs, the Compensation Committee considered in the context of industry standards, among other things, the long term interests of the Corporation and its shareholders, the financial and operating performance of the Corporation, contributions by the individuals towards attaining corporate objectives, levels of responsibility, length of service and compensation levels.

As the Corporation did not generate revenues from operations during the recently-completed fiscal year, traditional corporate and NEO performance standards such as earnings per share are not considered relevant by the Compensation Committee in NEO performance evaluation.

The Compensation Committee was satisfied that the Corporation’s compensation appropriately took into account the factors relevant to the industry, the Corporation’s performance within that industry, and the individual contributions to the Corporation’s performance made by its NEOs.

During the fiscal year ended December 31, 2016 the Corporation made no grants under either the Stock Option Plan or the Share Unit Plan.

Risks Associated with Corporation’s Compensation Policies and Practices

Neither the Board nor the Compensation Committee has proceeded to a formal evaluation of the implications of the risks associated with the Corporation’s compensation policies and practices. Risk management is a consideration of the Board when implementing its compensation programme, and the Board and the Compensation Committee does not believe that the Corporation’s compensation programme results in unnecessary or inappropriate risk taking including risks that are likely to have a material adverse effect on the Corporation.

The Corporation’s NEOs and directors are not permitted to purchase financial instruments, including for greater certainty, prepaid variable forward contracts, equity swaps, collars or units of exchange funds that are designed to hedge or offset a decrease in market value of equity securities granted as compensation or held, directly or indirectly, by the NEO or director.

Summary Compensation Table

The following table sets forth a summary of the total compensation paid to, or earned by the Corporation’s NEO’s during the three most recently completed financial years. Unless otherwise indicated, all dollar amounts in this section are enumerated in United States dollars, being the Corporation’s reporting currency

	2014	290,556	Nil	Nil	130,635	Nil	31,526	16,308	469,025

Notes:

- (1) Financial years ended December 31.
- (2) Salaries, annual incentive plan compensation and all other compensation earned have been paid in Swiss francs and are translated into United States dollars using an average exchange rate for the reporting year of 1.0147 per Swiss franc.
- (3) There were no option based awards granted during the most recently completed financial year. The value of the stock option grants has been determined using the Black-Scholes models on the date of grant and is consistent with the accounting value determinations used for financial statement purposes. The key assumptions used for this determination can be found in the notes to the 2016 consolidated financial statements. The amount presented in the table represents the value of the options granted in the period. For accounting purposes, the fair value is amortized over the applicable vesting periods. It should be recognized that the actual future value will be based on the difference between the market value at time of exercise and the exercise price. Therefore, the value attributed to the stock options under the Black-Scholes model as reported in the table above does not necessarily correspond to the actual future value that will be realized.
- (4) The Corporation does not currently have a formal annual incentive plan or non-equity long term incentive plan for any of its NEOs.
- (5) All Other Compensation for Mr. Bruijnzeels and Mr. Johnstone is comprised of medical insurance reimbursements received during the year.

INCENTIVE PLAN AWARDS

Outstanding option-based awards

The following table sets forth for the NEOs the incentive stock options (option-based awards) pursuant to the Stock Option Plan outstanding as at December 31, 2016.

Name	Option-based Awards			
	Number of securities underlying unexercised options (#)	Option exercise price ⁽¹⁾ (\$)	Option expiration date	Value of unexercised in-the-money options ⁽²⁾ (\$)
Chris Bruijnzeels President and Chief Executive Officer	15,000,000	0.115	January 19, 2020	Nil
Brenden Johnstone Chief Financial Officer	5,000,000 850,000	0.115 0.36	January 19, 2020 April 12, 2018	Nil Nil

Notes:

- ⁽¹⁾ Option exercise prices are reported Canadian dollars, being the currency in which the options are granted.
- ⁽²⁾ This amount is calculated as the difference between the market value of the securities underlying the options on December 30, 2016, being the last trading day of the Corporation's Common Shares for the financial year, which was CAD\$0.115, and the exercise price of the option. No value has been given to unexercised options that were out-of-the-money on December 30, 2016.

Incentive Plan Awards – value vested or earned during the year

The following table sets forth for the NEOs, the value vested during the financial year ended on December 31, 2016 for options awarded under the Stock Option Plan, as well as the value earned under non-equity incentive plans for the same period. The Corporation does not have any other share-based awards.

Name	Option-based awards – value vested during the year (\$) ⁽¹⁾⁽²⁾⁽³⁾	Share-based awards – value vested during the year (\$)	Non-equity incentive plan compensation – value earned during the year (\$)
Chris Bruijnzeels President and Chief Executive Officer	\$144,719	Nil	N/A
Brenden Johnstone Chief Financial Officer	\$48,240	Nil	N/A

Notes:

- ⁽¹⁾ The options granted to Named Executive Officers were vested as follows 1/3 upon grant, 1/3 one year from the date of grant and the remaining 1/3 two years from the date of grant.
- ⁽²⁾ Calculated using the closing price of the Common Shares as traded on the TSX Venture Exchange (“Exchange”) on the dates on which stock options vested during the financial year ended December 31, 2016, and subtracting the exercise price of in-the-money stock options.
- ⁽³⁾ The value of option-based awards vested has been determined using the Black-Scholes models on the date of grant and is consistent with the accounting value determinations used for financial statement purposes. The key assumptions used for this determination can be found in the notes to the 2016 consolidated financial statements. The amount presented in the table represents the value of options vested during the year 2016. For accounting purposes, the fair value is amortized over the applicable vesting periods. Option fair values were calculated in Canadian dollars and translated into United States dollars using the average annual exchange rate of 0.7544 for the January 19, 2015 option grants awarded to these individuals. It should be recognized that the actual future value will be based on the difference between the market value at time of exercise and the exercise price. Therefore, the value attributed to the stock options under the Black-Scholes model as reported in the table above does not necessarily correspond to the actual future value that will be realized.

Defined Benefit Pension Plan

The Corporation's Swiss subsidiary, ShaMaran Services SA, has a defined benefit pension plan that is managed through a private pension plan. Independent actuaries determine the cost of the defined benefit plan on an annual basis, and ShaMaran Services SA pays the annual insurance premium. The pension plan provides benefits coverage to the employees of ShaMaran Services SA in the event of retirement, death or disability. ShaMaran Services SA and its employees jointly finance retirement and risk benefits. Employees of ShaMaran Services SA pay 40% of the savings contributions, of the risk contributions and of the cost contributions and ShaMaran Services SA contributes the difference between the total of all required pension plan contributions and the total of all employees' contributions. A summary of the key terms of the Corporation's defined benefit pension plan is as follows:

General Information. ShaMaran Services SA is affiliated to the Swiss Life Collective BVG Foundation in Zurich which offers full insurance coverage. The employees are admitted to the risk insurance after age 18 (death and disability) and to full insurance after age 25 (retirement, death and disability). The normal retirement age (“NRA”) is 65 years for men and 64 years for women. Early retirement is possible up to 7 years before NRA. Deferred retirement is possible up to age 70.

Salary Definition. The insured salary corresponds to the annual base salary (no coordination offset) and is capped at 3,000% of the maximum Swiss social security pension.

Retirement credits. Amounts are age related and a percentage of the insured salary (years 18 – 34 = 7%; years 35 – 44 = 10%; years 45 – 54 = 15%; years 55 – 65male/64female = 18%).

Retirement benefits. The accrued savings capital is converted into a lifelong retirement pension plus a 60% future spouse pension based upon the conversion rate at the age of retirement. The insured member can choose a lump-sum payout upon request.

Disability benefits. The temporary disability pension up to NRA is equal to 50% of the insured salary. It is replaced by a lifelong retirement pension based on the accrued savings capital (premium waiver).

Death benefits. The spouse pension amounts to 60% of the projected retirement pension without interest at NRA. A lump sum on death before retirement is equal to the accrued savings capital less the present value of the spouse pension.

Contributions. Employees pay 40% of the savings contributions, of the risk contributions and of the cost contributions. The employer contribution corresponds to the difference between the total of all required pension plan contributions and the total of all employees' contributions.

Vesting. The accrued savings capital is immediately and fully vested. It is transferred to the new employer's pension fund or to a blocked account upon termination of the employment contract.

Other. Pension increases are granted by Swiss pension plan trustees on an ad-hoc basis depending on the financial situation of the pension fund. Employees can pay voluntary contributions up to the legal limit which is based on a defined percentage of an employee's insured salary over the insurable period of employment. Employees can withdraw part of or all accrued savings capital for the encouragement of home ownership for their own use.

The table below presents the benefits accumulated by the NEOs under the defined benefit plan of ShaMaran Services SA during the year ended December 31, 2016. The actual benefits payable upon retirement will be determined by the size of each participant's account values (based on actual contributions and the realized returns on investment), interest rates at the time the benefits commence and retirement age.

- (4) Non-compensatory change includes changes in the value of the defined benefit obligation due to changes in plan assumptions, such as inflation, interest foreign exchange, and discount rates, and due to employee contributions and any other non-compensatory related changes.

TERMINATION AND CHANGE OF CONTROL BENEFITS

Other than as set forth above, and as set out below under Employment Agreements, the Corporation and its subsidiaries have no other compensatory plan, contract or arrangement where a NEO is entitled to receive more than CAD\$100,000 (including periodic payments or instalments) to compensate such executive officer in the event of resignation, retirement or other termination of the NEO's employment with the Corporation or its subsidiaries, a change of control of the Corporation or its subsidiaries, or a change in responsibilities of the NEO, with or without a change in control.

No value has been given to unexercised options that were out-of-the-money on December 31, 2016.

Incentive Plan Awards – Value vested or earned during the year

The following table sets forth, for each director, other than those who are also NEOs of the Corporation, the value of all incentive plan awards vested during the year ended December 31, 2016:

Name ⁽¹⁾	Option-based awards – value vested during the year ⁽²⁾⁽³⁾ (\$)	Share-based awards – value vested during the year (\$)	Non-equity incentive plan compensation – value earned during the year (\$)

Gary S. Guidry	9,648	Nil	Nil
Brian D. Edgar	9,648	Nil	Nil
C. Ashley Heppenstall	19,296	Nil	Nil

Notes:

- (1) Information pertaining to director, Mr. Bruijnzeels, who is a NEO, is included under “Statement of Executive Compensation – Summary Compensation Table”.
- (2) 1/3 of the options granted to directors vest on the date of grant, an additional 1/3 vest one year from the date of grant and the remaining 1/3 two years from the date of grant.
- (3) The value of option-based awards vested has been determined using the Black-Scholes models on the date of grant and is consistent with the accounting value determinations used for financial statement purposes. The key assumptions used for this determination can be found in the notes to the 2016 consolidated financial statements. The amount presented in the table represents the value of options vested during the year 2015. For accounting purposes, the fair value is amortized over the applicable vesting periods. Option fair values were calculated in Canadian dollars and translated into United States dollars using the average annual exchange rate of 0.7544 for the January 19, 2015 option grants awarded to these individuals. It should be recognized that the actual future value will be based on the difference between the market value at time of exercise and the exercise price. Therefore, the value attributed to the stock options under the Black-Scholes model as reported in the table above does not necessarily correspond to the actual future value that will be realized.

INDEBTEDNESS OF DIRECTORS AND EXECUTIVE OFFICERS

None of the directors or executive officers of the Corporation, proposed nominees for directorship, or associates or affiliates of the said person, have been indebted to the Corporation at any time since the beginning of the last completed financial year of the Corporation.

INTEREST OF INFORMED PERSONS IN MATERIAL TRANSACTIONS

Other than as set out below and in this Circular, and other than transactions carried out in the ordinary course of business of the Corporation, none of the directors or executive officers of the Corporation, a director or executive officer of a person or company that is itself an informed person or subsidiary of the Corporation, nor any shareholder beneficially owning, directly or indirectly, Common Shares of the Corporation, or exercising control or direction over Common Shares of the Corporation, or a combination of both, carrying more than 10% of the voting rights attached to the outstanding shares of the Corporation nor an associate or affiliate of any of the foregoing persons has since January 1, 2016 (being the commencement of the Corporation's last completed financial year) any material interest, direct or indirect, in any transactions which materially affected or would materially affect the Corporation or any of its subsidiaries.

During the financial year ended December 31, 2016, the Corporation completed a financing arrangement (the "Financing Arrangement") with holders of GEP's Senior Bonds (the "Existing Bondholders") which provided the Corporation with additional liquidity of approximately \$33 million. The principal terms of the Financing Arrangement are:

1. On May 3, 2016 GEP issued new \$17 million Super Senior Bonds resulting in \$16.2 million in proceeds net of transaction costs. The Super Senior Bonds are based on the same agreement as the Senior Bonds with the same maturity date of November 13, 2018 and an 11.5% coupon interest payable semi-annually. GEP has the option to pay the coupon interest on the Super Senior Bonds in cash or in kind by issuing new bonds ("PIK Bonds"). ShaMaran's major shareholders, Lorito Holdings SARL and Zebra Holdings and Investments SARL, companies owned by the Lundin Family Trust, subscribed for \$15.3 million of the Super Senior Bonds in accordance with the terms of their agreement with GEP to underwrite the Super Senior Bonds.
2. On May 12, 2016 the Corporation completed the issue of a total of 218,863,000 of its common shares to Existing Bondholders who elected to convert to shares a total of \$18 million of Senior Bonds at face value. The shares were issued at CAD 0.105 which was closing share price on the TSX Venture exchange on the day prior to when the Existing Bondholders approved the offer on April 19, 2016.
3. The bond agreement for the Senior Bonds was amended so that (a) the 2016 coupon interest (\$17.3 million before considering the conversion in 2 above) was settled by issuing new PIK Bonds; (b) GEP has the option to pay in cash or in kind (by issuing new PIK Bonds) the post 2016 coupon interest; and (c) certain waivers and amendments were made to the terms of the Senior Bonds including the subordination of Senior Bonds' security to the Super Senior Bonds' security and the replacement of the book equity ratio maintenance covenant with certain debt incurrence tests described below.

During the most recently completed financial year, the Corporation incurred fees of \$299,000 for office rental and administrative and technical services from various subsidiary companies of Lundin Petroleum AB.

Unless such authority is withheld, the persons named in the accompanying proxy intend to vote for the reappointment of PricewaterhouseCoopers SA, as auditor of the Corporation, at a remuneration to be determined by the directors. PricewaterhouseCoopers SA were first appointed auditor of the Corporation on October 1, 2014.

MANAGEMENT CONTRACTS

No management functions of the Corporation are to any substantial degree performed by a person or company other than the directors or executive officers of the Corporation.

DISCLOSURE OF CORPORATE GOVERNANCE PRACTICE

The Corporation's Board of Directors and management have established certain corporate governance practices which, in the opinion of the Board, are consistent with the overall business of the Corporation and its stage of development. The following represents the disclosure required by National Instrument 58-101 - Disclosure of Corporate Governance Practices ("**NI 58-101**").

Corporate Governance Practices

National Policy 58-201 - Corporate Governance Guidelines sets out guidelines for effective corporate governance. These guidelines deal with matters such as the constitution and independence of corporate boards, their functions, the effectiveness and education of board members and other items dealing with sound corporate governance. NI 58-101 requires that if management of an issuer solicits proxies

from its security holders for the purpose of electing directors, specified disclosure of the corporate governance practices must be included in its management information circular.

The Board of Directors has considered the guidelines set out in NP 58-201 and believes that its approach to corporate governance is appropriate and works effectively for the Corporation and its Shareholders. The following is a description of the Corporation's corporate governance practices which have been approved by the Board.

The Board of Directors

All of the proposed nominees for election as directors at the 2016 Meeting are current directors of the Corporation. The Board of Directors is currently comprised of Keith C. Hill, Chris Bruijnzeels, C. Ashley Heppenstall, Gary S. Guidry, and Brian D. Edgar. With the exception of Mr. Bruijnzeels, all members of the Board of Directors are independent within the meaning of NI 58-101. Mr. Bruijnzeels is not independent as he is the CEO of the Corporation.

The independent directors exercise their responsibilities for independent oversight of management, and are provided with leadership through their position on the Board and ability to meet independently of management whenever deemed necessary.

Directorships

Several of the current directors of the Corporation serve as directors of other reporting issuers. Currently, the following directors serve on the boards of directors of other reporting issuers or reporting issuer equivalent(s) as follows:

Orientation and Continuing Education

The measures that the Board of Directors takes in connection with orienting new Board members regarding the role of the Board, its directors, the committees of the Board and the nature and operation of the Corporation's business include providing each new member with information concerning the role and responsibilities of a public company director and discussing with new members the Corporation's operations. New directors also have the opportunity to meet with management, technical experts and consultants of the Corporation. As each director has a different set of skills and professional background, the Board seeks to tailor orientation of new members according to the particular needs and experience of each new director. For example, if the new director is highly sophisticated with regard to the oil and gas industry, orientation on that matter would not be necessary or if a director has a high level of financial expertise, finance orientation may not be included. In addition, all new and existing Board members are provided with a Directors' Manual which contains, among other things, information respecting the functioning of the Board of Directors, committees and copies of the Company's corporate governance policies, the Board's mandate, the charters of the Board and its committees, corporate policies and other relevant information. The Directors' Manual is updated regularly.

The Board encourages continued education for its directors and ensures that all directors are kept apprised of changes in the Corporation's operations and business and changes in the regulatory environment affecting the Corporation's day to day business. At every Board meeting, management provides updates and briefings to directors with respect to the business and operations of the Corporation. The Corporation's outside legal counsel also provides directors and senior officers with summary updates of any developments relating to the duties and responsibilities of directors and officers and corporate governance matters. Board members may also attend external education seminars that they determine necessary to keep themselves up-to-date with current issues relevant to their services as directors of the Corporation. In addition, as part of the annual director assessment process, directors are canvassed by the Corporate Governance and Nominating Committee for their input on what additional information would assist them in increasing their effectiveness as directors. The Corporate Governance and Nominating Committee considers directors' responses and makes recommendations.

Ethical Business Conduct

The Corporation is committed to conducting its business in compliance with the law and the highest ethical standards. Accordingly, the Corporation has adopted a written Code of Business Conduct and Ethics, as amended (the "Code") applicable to directors, officers and all employees of the Corporation. Directors, officers or employees who have concerns or questions about violations of laws, rules or regulations, or of the Code, are required to report them to the Corporation's legal counsel. Following the receipt of any complaints submitted hereunder, the Corporation's legal counsel will investigate each matter so reported and report to the Board which will take corrective disciplinary actions, if appropriate, up to and including termination of employment. The Corporation encourages all directors, officers, and employees to report promptly any suspected violation of the Code to the Corporation's legal counsel. The Corporation does not tolerate any retaliation for reports or complaints regarding suspected violations of the Code that were made in good faith. There has been no departure from the Code during the Corporation's most recently completed financial year.

All directors, officers and employees have an obligation to act in the best interest of the Corporation. Any situation that presents an actual or potential conflict between a director, officer or employee's personal interests and the interests of the Corporation are to be reported to the Corporation's legal counsel.

The Code is available on the Corporation's website at www.shamaranpetroleum.com, and is available on the Canadian System for Electronic Document Analysis and Retrieval (SEDAR) website which may be accessed at www.sedar.com.

In addition to the Code, the Corporation has adopted policies to assist in the conduct of ethical business which include the following:

- an Internal Employee Alert Policy to encourage employees, officers and directors to raise concerns regarding accounting, internal controls or auditing matters, on a confidential basis free from discrimination, retaliation or harassment.
- a Blackout Period Policy for its directors, executive officers and senior management of the Corporation to raise the general level of awareness of the trading and confidential obligations of directors, executive officers and senior management. All directors, executive officers and senior management are expected to comply with the Blackout Period Policy.
- a Corporate Disclosure Policy to ensure effective communication between the Corporation, its shareholders and the public.

Nomination of Directors and Assessment

The Corporate Governance and Nominating Committee is currently comprised of three directors: Messrs. Brian D. Edgar (Chair), Keith C. Hill and Gary S. Guidry. All members are considered independent within the meaning of NI 58-101. The Corporate Governance and Nominating Committee is responsible for developing and monitoring the Corporation's approach to corporate governance issues. The Committee oversees the effective functioning of the Board, oversees the relationship between the Board and management, ensures that the

Board can function independently of management at such times as is desirable or necessary, identifies individuals qualified to become new Board members and recommends to the Board the director nominees at each annual meeting of shareholders and, with the assistance of the Board and where necessary, develops an orientation and education program for new recruits to the Board. In identifying possible nominees to the Board, the Corporate Governance and Nominating Committee considers the competencies and skills necessary for the Board as a whole, the skills of existing directors and the competencies and skills each new nominee will bring to the Board, as well as whether or not each nominee will devote sufficient time and resources to the Board. The Corporate Governance and Nominating Committee also annually reviews and makes recommendations to the Board with respect to: (i) the size and composition of the Board; (ii) the appropriateness of the committees of the Board; and (iii) the effectiveness and contribution of the Board, its committees and individual directors, having reference to their respective mandates, charters and position descriptions. The Corporate Governance and Nominating Committee meets at least once annually.

Compensation

As at the fiscal year ended December 31, 2016, the Compensation Committee is comprised of three directors, Keith C. Hill (Chair), C. Ashley Heppenstall, and Brian D. Edgar, all of whom are considered independent directors. The Compensation Committee evaluates the CEO's performance and establishes executive and senior officer compensation, determines the general compensation structure, policies and programs of the Corporation, including the extent and level of participation in incentive programs in conjunction with the Board, and delivers an annual report to shareholders on executive compensation. The Compensation Committee has also been mandated to review the adequacy and form of the compensation of directors and to ensure that such compensation realistically reflects the responsibilities and risk involved in being an effective director. The Compensation Committee meets at least annually. The Compensation Committee's role in the compensation of directors and the CEO of the Corporation is further described under "Compensation Discussion and Analysis".

Board Committees

At the present time, the Board has four (4) standing committees: the Audit Committee, the Compensation Committee, as described above, the Corporate Governance and Nominating Committee, as described above, and the Reserves Committee, described below. Disclosure with respect to the Audit Committee, as required by NI 52-110 – *Audit Committee*, is contained under the heading "Audit Committee and National Instrument 52-110, Audit Committees ("NI 52-110") Disclosure" and in Schedule "A" to this Circular.

Reserves Committee

The Reserves Committee is comprised of three independent directors: namely, Gary S. Guidry (Chair), Keith C. Hill and C. Ashley Heppenstall. The Reserves Committee has the responsibility in general for developing the Corporation's approach to the reporting of oil and gas reserves and other oil and gas information required to be publicly disclosed. The Reserves Committee's mandate prescribes the methodology that the Corporation and the independent evaluator selected by management and approved by the Reserves Committee will adhere to in the calculation of oil and gas reserves and the valuation of those reserves. The Reserves Committee must meet at least annually.

PARTICULARS OF OTHER MATTERS TO BE ACTED UPON

Annual Approval of Stock Option Plan

The Corporation's current Stock Option Plan governing the issuance of stock options was initially adopted by shareholders at the annual and special meeting held on June 21, 2004. The Stock Option Plan was most recently amended and approved by Shareholders on June 15, 2016.

The following is a description of material terms of the Stock Option Plan.

1. In combination with the aggregate number of Common Shares which may be issuable under any and all of the Corporation's equity incentive plans in existence from time to time, including the Company's Share Unit Plan, shall not exceed 10% of the issued and outstanding Common Shares of the Corporation at the time of grant, the exercise price of which, as determined by the board of directors in its sole discretion, shall not be less than the closing price of the Corporation's Common Shares traded through the facilities of the Exchange on the date prior to the date of grant, less allowable discounts, in accordance with the policies of the Exchange, provided that the option price shall not be less than CAD \$0.05 per share.
2. The board of directors shall not grant options to any one person in any one year which will exceed 5% of the issued and outstanding Common Shares of the Corporation, or to any consultant in any one year which will exceed 2% of the issued and outstanding Common Shares of the Corporation or in any one year period to those persons employed by the Corporation who perform investor

relations services which will, in aggregate, exceed 2% of the issued and outstanding Common Shares of the Corporation, as calculated on the date that that option is granted.

3. Shares subject to, but not issued or delivered under an option which expires or terminates, shall again be available for option under the Stock Option Plan. The maximum term of any option is five years.
4. If the option holder ceases to be an eligible person, being a bona fide consultant, a director, an employee or a management company employee in relation to the Corporation (as those terms are defined in Policy 4.4 of the Exchange) the option shall terminate no longer than 90 days after such person ceases to be in at least one of those categories, or if an optionee dies, within one year after the date of such death. Options granted to an option holder who is engaged in investor relations activities must expire within 30 days after the option holder ceases to be so engaged.
5. The options may be subject to such vesting schedule over time as the board of directors may, in their discretion, implement or as may be required by the Exchange. Options granted to consultants engaged to perform investor relations activities must be subject to vesting requirement, whereby such options must vest in stages over a 12 month period, with no more than 25% of the Shares vesting in any three month period.
6. The options are non-assignable. The Corporation may withhold from the optionee or its agent, as the case may be, any amounts required by applicable legislation to be withheld for any taxes, or otherwise, as a consequence of such participation in the Stock Option Plan.
7. The Corporation must obtain disinterested shareholder approval for any grant of stock options to insiders within a 12 month period, of a number of options exceeding 10% of the issued share capital of the Corporation.
8. Specific disinterested shareholder approval is required to reduce the exercise price of an option for an optionee who is an insider.
9. The exercise price and the number of Common Shares which are subject to an option may be adjusted from time to time for share dividends, and in the event of amalgamation or merger.

The Corporation does not provide any financial assistance to participants in order to facilitate the purchase of Common Shares under the Stock Option Plan. As at the date of this Information Circular, there were options outstanding under the Stock Option Plan to acquire 28,165,000 Common Shares, representing approximately 1.30% of the Corporation's current issued and outstanding shares.

A copy of the Stock Option Plan may be inspected at the head office of the Corporation, Suite 2000, 885 West Georgia Street, Vancouver, British Columbia, V6C 3E8 during normal business hours and at the Meeting. In addition, a copy of the Stock Option Plan will be mailed, free of charge, to any holder of Common Shares who requests a copy, in writing, from the Assistant Corporate Secretary of the Corporation. Any such requests should be mailed to the Corporation, at its head office, to the attention of the Assistant Corporate Secretary.

The policies of the Exchange require that rolling plans be approved by shareholders on a yearly basis. Accordingly, Shareholders are being asked to pass an ordinary resolution to ratify and confirm the Stock Option Plan as adopted by the Board which permits the issuance of up to 10% of the issued and outstanding Common Shares of the Corporation from time to time. To be effective, the resolution must be passed by a simple majority of the votes cast thereon by Shareholders present in person or by proxy at the Meeting. If the resolution to approve the Stock Option Plan is not approved by Shareholders of the Corporation, all unallocated stock options will be cancelled and the Corporation will not be permitted to make any further grants until Shareholder approval is obtained.

Shareholders will be asked to pass an ordinary resolution, in substantially the following form to re-approve the Stock Option Plan.

“BE IT RESOLVED AS AN ORDINARY RESOLUTION THAT:

1. the Stock Option Plan of the Corporation, as adopted by the Board of Directors, and as described in the Corporation's Circular dated May 12, 2017, be and is hereby approved and ratified, and the Corporation be and is hereby authorized to reserve for issuance pursuant to the Stock Option Plan up to 10% of the issued and outstanding common shares of the Corporation from time to time;
2. the Board of Directors be and is hereby authorized on behalf of the Corporation to make any amendments to the Stock Option Plan as may be required by regulatory authorities or otherwise made necessary by applicable legislation, without further approval of the shareholders of the Corporation, in order to ensure the adoption and efficient function of the Stock Option Plan; and
3. any director or officer of the Corporation be and is hereby authorized and directed to do such things and to execute and deliver all such instruments, deeds and documents, and any amendments thereto, as may be necessary or advisable in order to give effect to the foregoing resolutions, and to complete all transactions in connection with the implementation of the Stock Option Plan.”

The directors of the Corporation believe the passing of the foregoing ordinary resolution is in the best interests of the Corporation and recommend that Shareholders of the Corporation vote in favor of the resolution.

The persons named as proxies in the enclosed Proxy intend to cast the votes represented by proxy in favor of the foregoing resolution unless the holder of Common Shares who has given such proxy has directed that the votes be otherwise cast.

ANY OTHER MATTERS

Management of the Corporation knows of no other matters which will be brought before the Meeting, other than those referred to in the Notice of Meeting. Should any other matters properly be brought before the Meeting, the Common Shares represented by the proxies solicited hereby will be voted on those matters in accordance with the best judgment of the persons voting such proxies.
